Ninja 250 Luggage Rack
Design by N4MWD

Parts Needed from AircraftSpruce.com:

| Raw Materials | Alloy | Length | Quantity | Aircraft Spruce \# |
| :--- | :--- | :--- | :--- | :--- |
| $1 / 4^{\prime \prime} \times 1^{\prime \prime}$ Flat Bar | $2024^{*}$ | 3.0 Feet | 2 | $03-43400-3$ |
| $1 / 8^{\prime \prime} \times 1^{\prime \prime}$ Angle | $2024^{*}$ | 2.0 Feet | 1 | $03-47300-2$ |
| $1 / 16$ " $\times 3 / 4^{\prime \prime}$ Angle | $2024^{*}$ | 1.0 Foot | 1 | $03-47000-1$ |
| $1 / 8^{\prime \prime} \times 2^{\prime \prime}$ Flat Bar | $2024^{*}$ | 2.0 Feet | 1 | $03-42900-2$ |
| $1 / 8^{\prime \prime} \times 1.5^{\prime \prime}$ Flat Bar | $2024^{*}$ | 3.0 Feet | 1 | $03-42800-3$ |
| $0.071^{\prime \prime} \times 1.0$ Flat Bar | $4130^{* *}$ | 3.0 Feet | 1 | $03-19200-3$ |
| $1 / 2^{\prime \prime}$ OD $\times 0.260$ " ID Tubing | $6061-\mathrm{T} 6$ | 1.0 Foot | 1 | $03-35975-1$ |
| Solid Hard Rivet | 2117 | $3 / 4$ Inch | $1 / 8 \mathrm{Ib}$ | AN470AD-4-12 |
| Solid Hard Rivet | 2117 | $9 / 16$ Inch | $1 / 8 \mathrm{Ib}$ | AN470AD-4-9 |

*2024 = 2024-T351 Aluminum
**4130 $=4130$ Chromoly Steel - Ok to substitute mild steel

Miscellaneous Hardware:

| Part | Diameter | Thread | Length | Qty | Notes |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Bolt | 6 mm | 1.0 | 12 mm | 2 | Grab Bar Brackets |
| Bolt | 6 mm | 1.0 | 55 mm | 4 | Luggage Hook Mounts |
| Bolt | $8 / 32$ | $8 / 32$ | $0.75 "$ | 12 | Top Plate Mounting Bolts |
| Washer | 6 mm |  |  | 6 | Use on all 6 mm bolts |
| Washer | $8 / 32$ |  |  | 12 | Use on all $8 / 32$ bolts |
| Stop Nut | $8 / 32$ | $8 / 32$ |  | 12 | Optional: Use as safety nut |

Required Tools:
Hammer, metal cutting saw, drill bits ( $1 / 8^{\prime \prime}, 1 / 4^{\prime \prime}$, and $3 / 16$ "), grinder with wire brush, Cclamps, cleco set, cleco pliers, caliper, measuring tape, center punch, $8 / 32$ tap, drill, scotch tape, air compressor, air riveting hammer, riveting hammer bits, vice, 10 mm socket and wrench, 10 mm open end wrench, and a phillips screwdriver.

## Ninja 250 Luggage Rack

Grab Bar Attachment Bracket 0.071 " or 0.065 " Steel

Drill holes and trim in place

## Print this page and cut out parts.

Cut the Upper Ascending Arm and the Lower Mount Bracket. Cut as described in the video.
Verify printer scale by measuring each part.
These parts should print to the exact size.
